

AMPLIFY 2019: OPENING DOORS FOR ALL STUDENTS

NAfME NATIONAL CONFERENCE

NOVEMBER 6-10 ORLANDO

Join your fellow NAfME members in Orlando, where we'll come together as music educators to lead our profession's direction, engage with each other as colleagues, and inspire one another to guide our music students to excellence.

Our 2019 theme, "Amplify the Future of Music: Opening Doors for All Students," features these content strands:

Amplify: Creativity – How do we create a learning environment that supports student voice, creativity, collaboration, and choice – whether via composition, improvisation, in current ensembles, or other pathways for creative musical endeavors?

Amplify: Student Engagement – How do we engage all students daily within our classrooms and throughout our school as they create, perform, respond, and connect to music?

Amplify: Instruction – How do we expand instructional practices to support student ownership, voice, choice, and assessment in a standards-based, high-quality music education?

Amplify: Access – How do we guarantee and expand access to music education for every student in our school sites and classrooms, which could involve parents, administration, and other outside connections?

Amplify: Community – How do we successfully create a musical community within our schools and/or beyond the school walls in urban, rural, or suburban settings?

Amplify Inspiration Showcase – In addition to the Amplify themes, there will be a showcase of research and quality classroom practice in an informal, "poster session" format.
