

Guitar Best Practices

Years 1, 2, 3 and 4

Many schools today offer guitar classes and guitar ensembles as a form of music instruction. While guitar is a popular music choice for students to take, there are many teachers offering instruction where guitar is their secondary instrument.

The [NAfME Guitar Council](#) collaborated and compiled lists of **Guitar Best Practices** for each year of study. They comprise a set of technical skills, music experiences, and music theory knowledge that guitar students should know through their scholastic career.

As a Guitar Council, we have taken careful consideration to ensure that the lists are applicable to middle school and high school guitar class instruction, and may be covered through a wide variety of method books and music styles (classical, country, folk, jazz, pop). All items on the list can be performed on acoustic, classical, and/or electric guitars.
