PREFACE

The purpose of this syllabus is to establish minimum basic concepts and develop proficient performance standards as articulated in the voluntary **National Core Arts Standards** which have been designed to encourage excellence through artistic literacy. These standards grow from four specific artistic processes and encompass the skills, knowledge and abilities articulated the Visual and Performing Arts Content Standards for California Public Schools. The National Core Arts Standards also acknowledge the value of assessment to evaluate curriculum, instruction, student achievement, and teacher effectiveness.

The **National Core Music Standards** center on the development of four **Artistic Processes** which are consistent across all of the arts disciplines. In terms of music specifically, the **National Coalition for Core Arts Standards** has defined these processes as follows.

- **CREATING (Cr):** Conceiving and developing new artistic ideas and work
- **PERFORMING (Pr):** Realizing artistic ideas and work through interpretation and presentation
- **RESPONDING (Re):** Understanding and evaluating how the arts convey meaning
- **CONNECTING (Cn):** Relating artistic ideas and work with personal meaning and external context

Each of these four Artistic Processes splits into several **Anchor Standards** that “describe the general knowledge and skill that teachers expect students to demonstrate throughout their education in the arts.”¹ (p. 12 National Core Arts Standards: A Conceptual Framework for Arts Learning)

STUDENTS WILL:

Create:

- Anchor Standard 1: Generate and conceptualize artistic ideas and work.
- Anchor Standard 2: Organize and develop artistic ideas and work
- Anchor Standard 3: Refine and complete artistic work.

Perform:

- Anchor Standard 4: Select, analyze, and interpret artistic work for presentation.
- Anchor Standard 5: Develop and refine artistic techniques and work for presentation.
- Anchor Standard 6: Convey meaning through the presentation of artistic work.

Respond:

- Anchor Standard 7: Perceive and analyze artistic work.
- Anchor Standard 8: Interpret intent and meaning in artistic work.
- Anchor Standard 9: Apply criteria to evaluate artistic work.

Connect:

- Anchor Standard 10: Synthesize and relate knowledge and personal experiences to make art.
- Anchor Standard 11: Relate artistic ideas and works with societal, cultural and historical context to deepen understanding.

Aligned **Performance Standards** describe student learning within each discipline on a grade-by-grade basis from grades PK-8 and at three levels of proficiency – proficient, accomplished and advanced -- in grades 9-12. The performance standards thus translate the anchor standards into specific, measurable learning goals.

Enduring Understandings will be used throughout this syllabus to reinforce big ideas and long-lasting discoveries that will impact students for a lifetime. Key concepts, reinforced by **Essential Questions**, should be developed to lead students to make these discoveries and have therefore been incorporated into the sample teaching strategies provided.

The **course scope and goals** are broad statements leading to **enduring understandings** and should facilitate the designing of a program that will meet the needs of students. These are designed to lead to an over-arching structure to address life issues of lasting importance that extend beyond all times, cultures, and disciplines.

The **course structure** is an overview of the key concepts to be included in the major areas of emphasis. The numbers to the right of the structure refer to the specific performance standard addressed in the body of the syllabus.

The **performance standards** reflect the proficient level of expectations of the completed course. They are organized statements which will be used to measure student achievement. Each performance standard statement includes the respective number of the course goal(s) to which the standard relates.

The **strategies** provide an extension to the regular classroom methodology. They offer additional approaches for translating the performance standards into actual instructional activities. Instructional practices incorporate integration of diversity awareness including their important contribution to our society.

The **suggested resources** section lists materials which may be useful in realizing the performance standards. The appropriate use of technology is an integral part of this program.

Teachers will use this syllabus in all **Introduction to Mariachi: Armonia** classes.
