

### Joe Dyvig - Leadership Statement

As I have taken various leadership positions within the Washington Music Educators Association and the Olympia School District I have focused my efforts in service and leading by example. Service has been through taking on roles such as honor group management, chairing festivals, presenting at conferences and workshops, and serving on boards. Through all of these experiences my goal has been to provide the best experiences possible for teachers and their students who have entrusted me with these responsibilities. While working on these projects I never lose sight of my primary professional responsibility as the orchestra teacher at Olympia High School. There I work to be a role model and standard bearer of excellent teaching, musicianship, and lifelong learning.
