Assessment

Composition/theory: Advanced
Intent of the Model Cornerstone Assessments

Model Cornerstone Assessments (MCAs) in music assessment frameworks to be used by music teachers within their school’s curriculum to measure student attainment of process components defined by performance standards in the National Core Music Standards. They focus on one or more Artistic Process (i.e., Creating, Performing, or Responding) and are designed as a series of curriculum-embedded assessment tasks, each of which measures students’ ability to carry out one or more process components. The MCAs can be used as formative and summative indications of learning, but do not indicate the quality of teaching or effectiveness of a school’s music program.

Although each MCA is designed so that it can be administered within an instructional sequence or unit, teachers may choose to spread the component parts of one MCA across multiple units or projects. Student work produced by the national pilot is available on the NAfME website that illustrates the level of achievement envisioned in the National Core Music Standards.

Description of the MCA

Students will create and describe compositions to be considered for use as a theme and variations for a prime time television show about sibling relationships. The compositions will consist of a theme and three variations, in which one or more elements of music (pitch, rhythm, harmony, dynamics, timbre, texture, form, and/or style/articulation) are used differently from the theme in each variation to affect the mood or style. Students will then select their own or a classmate’s composition to perform, and respond to a classmate’s composition.

Administration of the Assessment Task

This assessment task is to be incorporated into classroom instruction. It is to be administered in a safe, appropriately supervised environment following school policy and procedures. Accommodations based upon student IEP, 504 Plan, etc. will determine the implementation of this assessment task for applicable students. Printable copies of worksheets and scoring devices with additional links to editable.doc documents are included. Students will need the following materials and resources to complete this assessment task:

- student copies of Task Instructions, Imagination Sheets, Analysis Form, Peer Evaluation Form, Rehearsal Plan Sheet, Presentation Preparation Worksheet, Composer Self-Evaluation Form, Responding Form, and Selection Sheet
- pencils and erasers
- variety of instruments including guitars, piano/keyboard, band, orchestra, barred instruments, electronic instruments, computers, tablets, etc.
- rehearsal space(s)
- performance space
- digital audio recorder

This assessment is comprised of students’ creating a music composition, performing their own or a classmate’s composition, and responding to a classmate’s composition. Use the following links to find the National Standards Skills and Knowledge and the Music Standards Glossary.

Estimated time for Teaching and Assessment

Individual teachers can determine the length of time required to complete the assessment. Teachers should administer the task in the way that is most practical for their classrooms and the allotted time periods. Implementing of the task to his/her available class time and schedule.
Assessment Procedures:

1. Teacher distributes to the students the **Task Scenario**.

2. Students independently read the scenario, then asks for clarification if necessary.

3. Teacher instructs students to create a Prime Time TV Theme and Variations for performance using any combination of voice or instrument (acoustic or technology-based). This musical composition must be able to be played by themselves or a classmate using instruments, voice, and/or amplified computer, tablet, etc.

4. Teacher distributes to the students the **Imagination Sheet**. ([link to .docx version](#))

5. Students independently generate and describe the musical ideas related to the television show’s sibling relationships topic they will use in composing their theme and variations on the Imagination Sheets.

6. Teacher collects the student Imagination Sheets for scoring using the **Imagine Scoring Device** ([.docx version](#)) and provides feedback.

3. Students notate their in-progress composition drafts (*using what they consider as the most appropriate traditional or non-traditional notation for the selected instrumentation*).

4. Teacher distributes [Analysis Form](#) to each student. ([link to .docx version](#))

5. Students identify and describe (using the Analysis Form) how one or more elements of music are used differently from the theme in each variation to affect the mood or style; and how they can be used to represent the television show’s sibling relationship topic.

6. Teacher collects the recorded and notated versions of the theme and variations draft and the Analysis Form from each student for scoring with the [Plan, Make, and Analyze Scoring Device](#); ([.docx version](#)) and provides feedback on the Analysis form to guide further refinement. (*the Analysis form will be returned to the student in the next step*).

Model Cornerstone Assessment (updated 2017)                             Advanced: Theory/Composition, Page 8

Assessment Procedures:

1. Teacher returns student theme and variations drafts collected during Step 2, and provides paper for notating additional drafts.
2. Students independently perform their theme and variations to another class member who evaluate the technical and expressive aspects of the theme and variations and provide feedback using the Peer Evaluation Form. (link to .docx version)
3. The student composer will then interpret the feedback from the peer and the teacher to guide final refinement of their evolving draft, keeping in mind that their theme and variations should demonstrate craftsmanship and originality.
4. After revisions are complete, students independently prepare readable final drafts of their theme and variations for rehearsal leading to performance.

Assessment Procedures:

1. Teacher distributes the student Rehearsal Plan Sheets. (link to .docx version)
2. On the Rehearsal Plan Sheet, students describe improvement needs and strategies to achieve these goals, then rehearse the theme and variations using the strategies for improvement described.
3. Students evaluate achievement throughout several practice sessions and refine the performance of their theme and variations.
4. When ready, the student audio records the performance of his/her theme and variations to present in class.
Assessment Procedures:

1. Teacher distributes to the students the Responding Form.
2. Student submit the final notated composition to the teacher, then presents his/her recorded theme and variations to the class. The presentation includes:
   - Announcement of the title of his/her theme and variations.
   - Persuasive description of how he/she used one or more elements of music (pitch, rhythm, harmony, dynamics, timbre, texture, form, and style/articulation) differently from the theme in each variation to affect the mood or style.
   - Play of the recorded theme and variations.
   - The teacher scoring the composition and presentation with the Composition Presentation Scoring Device (.docx version)
3. Following the presentation, the students in the class complete a Responding Form while the composer completes the Theme and Variations Self-Evaluation Form.
4. Teacher collects the Presentation Preparation Worksheet, Rehearsal Plan Sheets, Peer Feedback Form, and recorded composition. These will be scored using the Process Scoring Device (.docx version) by comparing the final notated/recorded performance to the earlier notated/recorded draft and reflection on the Peer Feedback Form.
5. Teacher also collects the Responding Forms for scoring using the Responding Scoring Device (.docx version)

Dear Composer,

You have been recommended to submit a composition to be considered for selection as an original theme and variations for a prime time television show about sibling relationships being developed by the Audio Production Company. The theme and variations will be played at the beginning and end of the show throughout the season. It can be in any style or genre, including jazz, popular music, world music, etc. Your submission will be reviewed by a panel for selection.

The review panel has asked that the theme and variations consist of a theme and three variations, in which one or more elements of music (pitch, rhythm, harmony, dynamics, timbre, texture, form, and style/articulation) are used differently from the theme in each variation to affect the mood or style. The composition is to be performed by you and/or your classmates. The theme and variations may be created to be sung and/or performed using traditional instruments, electronic instruments, computers, tablets, etc. The review panel would like each member of your class to create one theme and variations, describe the theme and variations, perform his/her own or a classmate’s theme and variations. The review panel is very interested in knowing how your composition relates to the television show’s sibling relationship topic; and how one or more elements of music are used differently from the theme in each variation to affect the mood or style in the composition. Therefore, you will be asked to write a description of your music to accompany your theme and variations.

The expectations of the project are described in the contract. Following your performance, the review panel would like you to respond to a classmate’s theme and variations, providing additional insight to help them understand the theme and variations and determine their expressive intent. See the attached agreement for details.

Warm regards,

The Audio Production Company Inc.
Statement of Work

Agreement for Prime Time TV Theme and Variations

You must meet the following task requirements when creating your theme and variations:

• Compose an original theme and variations consisting of a theme and three variations, in which one or more elements of music (pitch, rhythm, harmony, dynamics, timbre, texture, form, and style/articulation) is used differently from the theme in each variation to affect the mood or style.
• The theme and variations should be at least 48 measures or 90 seconds in length.
• Notate your theme and variations (using the most appropriate traditional or non-traditional notation for your instrumentation) so that it is readable and performable by you, others, or computer. This may include:
  o Choosing the appropriate clef (treble clef, bass clef, alto clef) for the voice or instrument.
  o Choosing a key signature and time signature.
  o Demonstrating appropriate note and bar line placement.
• The theme and variations must demonstrate craftsmanship and originality.

Project Expectations

The composed theme and variations must be at an appropriate level of performance challenge for you and your co-performing classmates’ performance skill. In order to accomplish this, it is expected that you:

• Identify and address the technical, stylistic, and musical challenges of the theme and variations as they relate to your and your co-performing classmates’ performance skill.
• Apply your understanding of theoretical and structural principles as they function within the context of the theme and variations.
• Develop and submit a rehearsal plan that provides strategies for improvement of technical and expressive aspects of the theme and variations’ performance.
• Rehearse, evaluate, and refine your performance, addressing and improving on the identified performance challenges; and ensuring that it conveys the theme and variations’ elements of music, style, mood, function, context, and intent.
• The theme and variations will be recorded using your voice or traditional instrument, electronic instrument, computer, tablet, etc. of choice.
• The presentation must include the following:
  - introduce yourself and the title of the theme and variations.
  - persuasively explain how the theme and variations relate to the television show’s sibling relationships topic, and how one or more elements of music (pitch, rhythm, harmony, dynamics, timbre, texture, form, and style/articulation) is used differently from the theme in each variation to affect the mood or style; and how the elements of music, formal design, style, mood, function, and context are used in the theme and variations to convey intent.
  - play the recording of your theme and variations.
• You will respond to your classmates’ theme and variations, identifying how they used the elements of music, formal design, compositional techniques, and style to relate to the television show’s sibling relationships topic.

Use this sheet to brainstorm and describe ideas: e.g., sounds, sequences, textures, timbres, dynamic shapes, melodic ideas that could be used for your music composition (theme and variations). These ideas should relate to the television show’s sibling relationships topic, and will be used in the planning and making of your composition. In your theme and variations, the elements of music (pitch, rhythm, harmony, dynamics, timbre, texture, form, and style/articulation) are to be used to represent the television show’s topic.

Presentation Preparation Worksheet

For the class presentation of your theme and variations, you will submit a final notated version of your composition to the teacher, and then present the recorded theme and variations to the class as follows:

- Announce the title of the theme and variations.
- Persuasively explain to the audience how the theme and variations relate to the television show’s sibling relationships topic, and how one or more elements of music (pitch, rhythm, harmony, dynamics, timbre, texture, form, and style/articulation) is used differently from the theme in each variation to affect the mood or style.
- Play the recorded theme and variations.
- You will then complete a self-evaluation while the class members complete their Responding Form.
- At the end of class you will submit to the teacher this Presentation Preparation Worksheet; Rehearsal Plan Sheet; Peer Evaluation Form; Recording of your Theme and Variations; and your Self-Evaluation.

(complete the following to prepare your presentation)
