Artistic Process: Performing 5th Grade General Music

Anchor Standards / Enduring Understandings / Essential Questions

Common Anchor #4:	Select, analyze, and interpret artistic work for presentation
Enduring Understandings	Performers' interest in and knowledge of musical works, understanding of their own technical skill, and the context for a performance influence the selection of repertoire. Analyzing creators' context and how they manipulate elements of music provides insight into their intent and informs performance. Performers make interpretive decisions based on their understanding of context and expressive intent.
Essential Question(s)	How do performers select repertoire? How does understanding the structure and context of musical works inform performance? How do performers interpret musical works?
Common Anchor #5:	Develop and refine artistic techniques and work for presentation
Enduring Understanding	To express their musical ideas, musicians analyze, evaluate, and refine their performance over time through openness to new ideas, persistence, and the application of appropriate criteria.
Essential Question(s)	How do musicians improve the quality of their performance ?
Common Anchor #6:	Convey meaning through the presentation of artistic work
Enduring Understanding	Musicians judge performance based on criteria that vary across time, place, and cultures. The context and how a work is presented influence the audience response.
Essential Question(s)	When is a performance judged ready to present? How do context and the manner in which musical work is presented influence audience response?

Intent of the Model Cornerstone Assessments

Model Cornerstone Assessments (MCAs) in music assessment frameworks to be used by music teachers within their school's curriculum to measure student attainment of process components defined by performance standards in the National Core Music Standards. They focus on one or more Artistic Process (i.e., Creating, Performing, or Responding) and are designed as a series of curriculum-embedded assessment tasks, each of which measures students' ability to carry out one or more process components. The MCAs can be used as formative and summative indications of learning, but do not indicate the quality of teaching or effectiveness of a school's music program.

Although each MCA is designed so that it can be administered within an instructional sequence or unit, teachers may choose to spread the component parts of one MCA across multiple units or projects. Student work produced by the national pilot is available on the NAFME website that illustrates the level of achievement envisioned in the National Core Music Standards.

Using the MCA document

MCAs are presented as a framework to be integrated into current curriculum. An example is provided that demonstrates the integration of curricular content. These examples are the specific tasks presented in the national pilot and may be used as the program so desires. Each MCA is available in a .pdf format with links for easy navigation within the document with external links for .doc versions of worksheets. The next page provides the assessment description with each bubble being a link to a detailed description of the assessment.

General Description of the Assessment Task

In this MCA, students will demonstrate their ability to select a voice, mallet, or recorder piece to prepare for performance. They will analyze, practice, and perform their piece. This MCA does not assess ability to sight-read. Individual teachers can determine the length of time required to complete the assessment such as completing the tasks over a few weeks. Use the following links to find the National Standards [Skills and Knowledge](#) and the [Music Standards Glossary](#).

Model Cornerstone Assessment, 5th Grade General Music: Performing

Preparing a Piece for Performance

Select

MU:Pr4.1.5a **Demonstrate** and explain how the selection of music to **perform** is influenced by personal interest, knowledge, and **context**, as well as *their personal and others'* **technical skill**.

Assessment Strategy 1

Teacher asks students to select a piece to perform from a specific group of pieces studied in class (vocal, mallet, or recorder) and explain their choices based on their personal interest, knowledge, context, and their technical skill.

Analyze

MU:Pr4.2.5a **Demonstrate** understanding of the **structure** and the **elements of music** (such as **rhythm**, **pitch**, **form**, and **harmony**) in music selected for **performance**.

MU:Pr4.2.5b When analyzing selected music, read and perform using **standard notation**.

MU:Pr4.2.5c Explain how **context** (such as **social**, **cultural**, and **historical**) informs **performances**.

Assessment Strategy 2

Teacher provides students with the printed music of the piece selected to perform from Assessment Strategy 1 and asks them to study and practice their piece, then complete the Analyze and Interpret Worksheet.

Interpret

MU:Pr4.3.5a **Demonstrate** and explain how **intent** is conveyed through interpretive decisions and **expressive qualities** (such as **dynamics**, **tempo**, **timbre**, and **articulation/style**).

Assessment Strategy 3

Teacher allows students to have time to rehearse, evaluate, and refine the piece in preparation for the final presentation. Students seek feedback from their peers or the teacher and document their progress using the Rehearse, Evaluate, and Refine Practice Plan.

Rehearse, Evaluate, Refine

MU:Pr5.1.5a Apply **teacher provided** and **established criteria** and feedback to evaluate the accuracy and expressiveness of **ensemble** and personal **performances**.

MU:Pr5.1.5b Rehearse to refine **technical accuracy** and **expressive qualities** to address challenges, *and show improvement over time*.

Assessment Strategy 4

The teacher asks students to perform the music to demonstrate performance proficiency of selected criteria and complete self-evaluation and reflection about their performance.

Present

MU:Pr6.1.5a **Perform** music, alone or with others, with **expression**, technical accuracy, and appropriate **interpretation**.

MU:Pr6.1.5b **Demonstrate performance decorum** and **audience etiquette** appropriate for the **context**, **venue**, **genre**, and **style**.

Differentiation Strategies

(Instructional approaches that respond to individual student needs and strengths to maximize student learning and success.)

Resource: (sample) <http://www.ascd.org/publications/books/100216/chapters/Understanding-Differentiated-Instruction@-Building-a-Foundation-for-Leadership.aspx>

- pre-assess to determine levels of student prior knowledge and abilities
- determine and teach to reduce learning gaps allowing alternative forms of communicating expectations to students as needed
- create independent enrichment/enhanced work for students who show mastery
- group students to accommodate learning needs
- use provocative, complex questioning to stimulate high level thinking
- devise open-ended tasks to allow students of all ability levels to achieve success at their own levels
- tier tasks to address levels of abilities and support students within each tier,
- assure that students are given choice in tasks in order to address their learning styles, interests, etc.
- allow students to respond to tasks in alternative ways if the defined response in the MCA hinders an individual's means of demonstrating learning.

Extension Experience: Have students write in journals and/or essays reflecting on their composition experiences. Using the language of the Composition Rubric, they should include why their melody worked or didn't work, what they will do differently in their next compositions, and an assessment of their efforts on the project. A brief reminder of the Six-Trait Writing Model might be in order.
