How to Search Multiple NAfME Journals Simultaneously

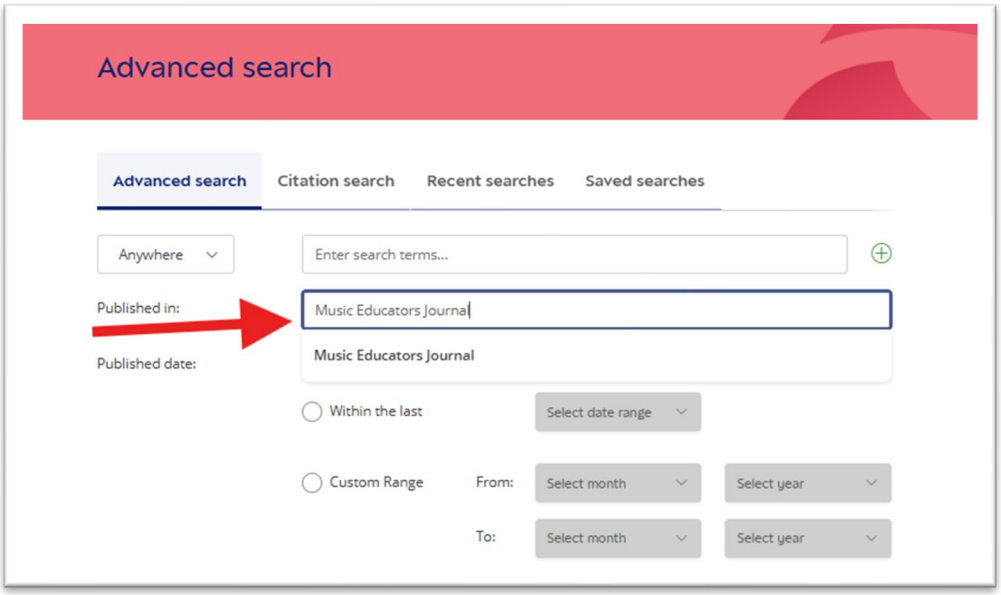

1. **Log in to your NAfME account and select any one of the journals to start a search on the Sage site.**

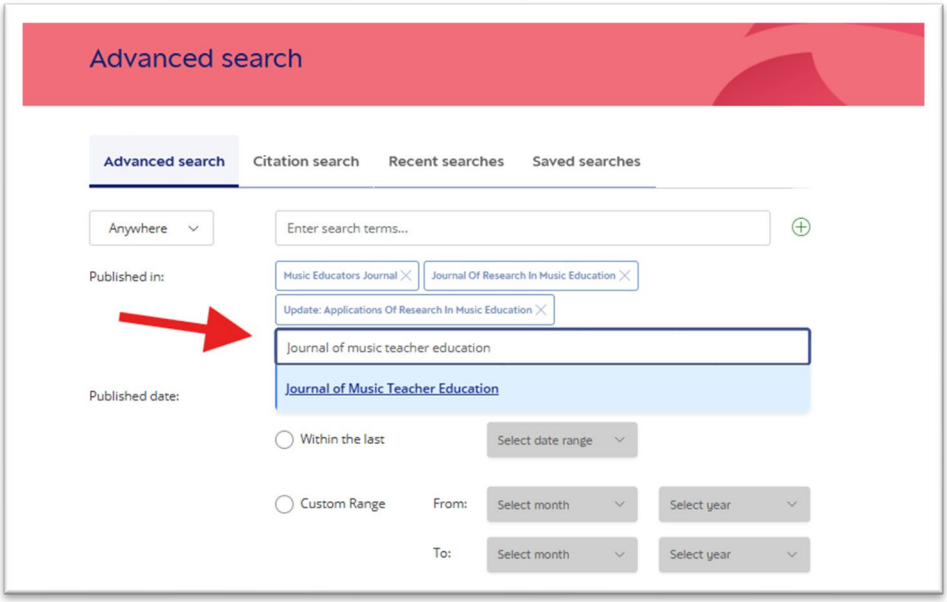

2. **Click "Advanced search" at the top of the journal's Sage webpage.**

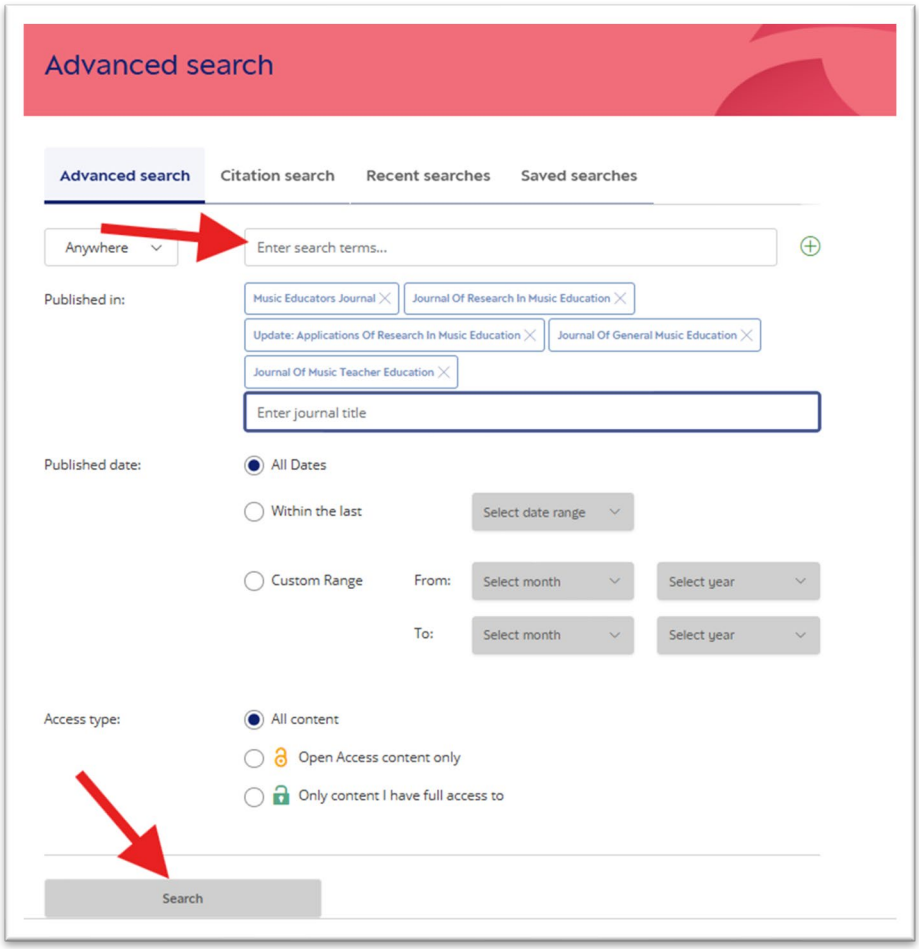

3. **In the "Published in" box, enter the title of a journal you want to search. Click on the title when it pops up. Then enter additional journal titles in the same way. Any Sage journal can be included.**

4. Enter your search terms (and date range criteria if desired), then click the "Search" button.

If you have questions, contact Amy Bradley, NAfME Editor, at AmyB@nafme.org.
